INTRODUCTORY SECTION

CITY OF CORSICANA, TEXAS

March 30, 2007

To the Citizens of the City of Corsicana:

The annual financial report of the City of Corsicana for the year ended September 30, 2006, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the City. Disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The annual financial report is presented in three sections; Introductory, Financial and Statistical. The introductory section includes this transmittal letter, the City's organizational chart and the list of principal City officials. The financial section includes the basic financial statements and the individual and combining fund and account group financial statements and schedules. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

This report includes all funds and account groups of the City of Corsicana. The City provides a full range of services including police and fire protection, sanitation services, construction and maintenance of streets, and infrastructure, recreational activities and cultural events. In addition to general government activities, the Proprietary Funds are included in the reporting entity since the City exercises oversight of these funds.

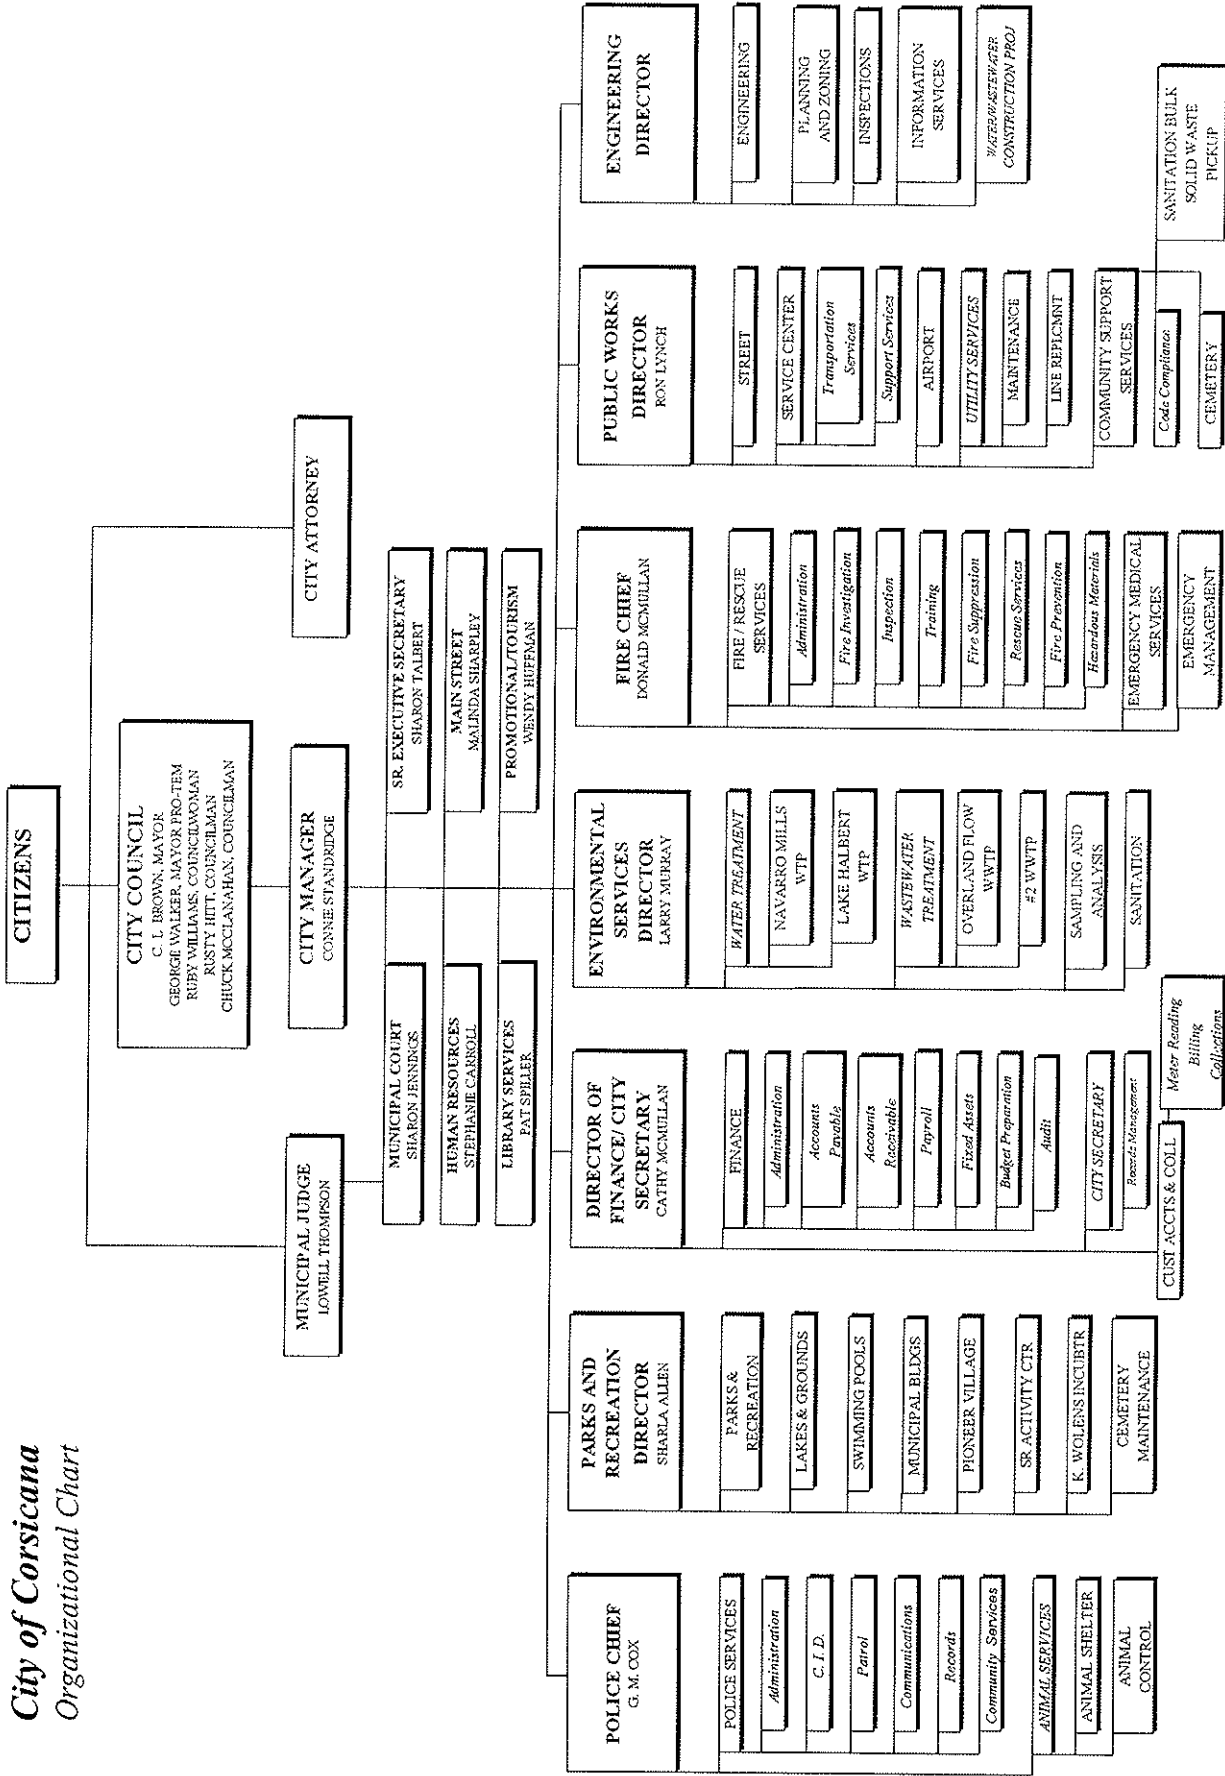

The City of Corsicana, with a population of approximately 25,858, is located in north central Texas, 53 miles south of Dallas and 54 miles east of Waco. The City has a diversified economic base comprised of agri-business, industry and mineral production.

The City has designated an area as an "Enterprise Zone" pursuant to the Texas Enterprise Zone Act, provided tax incentives and assistance to induce investment from private resources in productive business enterprises to locate in a severely distressed area of the City, and to provide employment to residents of the area. The City continues to implement inducements to locate and expand business in Corsicana through the Texas Capital Fund.

Sincerely,

Cathy McMullan
Director of Finance

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and
Members of the City of Council
City of Corsicana, Texas

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the City of Corsicana, Texas, as of and for the year ended September 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Corsicana, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the City of Corsicana, Texas, as of September 30, 2006, and the respective changes in financial position, and cash flows, where applicable, and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government's Auditing Standards*, we have also issued our report dated March 30, 2007, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 3 through 10 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Corsicana, Texas' basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Satullo, Brown & Hill LLP

**MANAGEMENT'S
DISCUSSION AND ANALYSIS**

Management's Discussion and Analysis

As management of the City of Corsicana, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on page i of this report.

FINANCIAL HIGHLIGHTS

- The assets of the City of Corsicana exceeded its liabilities as of September 30, 2006, by \$62,422,353 (net assets). Of this amount, \$3,239,710 (unrestricted net assets) may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's change in net assets was an increase of \$1,065,080.
- At the close of the current fiscal year, the City of Corsicana's governmental funds reported combined ending fund balances of \$7,371,388. Of this amount, \$7,271,359 represents unreserved fund balances available for use within the City's fund designation and fiscal policies.
- As of September 30, 2006, the unreserved, undesignated fund balance for the General Fund was \$1,644,306.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Corsicana's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements – The government-wide financial statements, which begin on page 11 of this report, are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City of Corsicana's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include General Government, Public Safety, Public Works, and Community Services. The business-type activities of the City include Utility Operations (Water and Sewer), Sanitation, and EMS (Emergency Medical Services).

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Corsicana, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the City can be divided into three categories – governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Beginning on page 13 of this report, information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds – The City maintains one type of proprietary fund, the Enterprise Fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an Enterprise Fund to account for the Utility Operations Fund, Sanitation Fund, and the EMS (Emergency Medical Services) Fund.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements, which begin on page 19 of this report, provide separate information for the Utility Operations, Sanitation and EMS Enterprise Funds since they are considered to be major funds of the City.

Fiduciary Funds account for assets held by the City in a trustee capacity or as an agent on behalf of others. These funds are custodial in nature and do not involve measurement of results of operations.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 24 – 46 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents combining fund statements and schedules that further support the information in the financial statements. The combining fund statements and schedules for nonmajor funds are presented immediately following the notes to the financial statements beginning on page 47 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of government's financial position. In the case of the City of Corsicana, net assets exceeded liabilities by \$62,422,353 as of September 30, 2006.

The largest portion of the City's net assets \$55,423,545 reflects its investments in capital assets (e.g., land, building, equipment, improvements, and construction in progress), less any outstanding debt used to acquire those assets. The City uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF CORSICANA'S NET ASSETS

	Governmental Activities		Business-type Activities		Totals	
	2006	2005	2006	2005	2006	2005

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Funds – The focus of the City of Corsicana's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Corsicana's governmental funds reported combined ending fund balances of \$7,371,388. Approximately 99% of this total fund balance constitutes an unreserved fund balance. The remainder of the fund balance \$100,029 is reserved to indicate what is not available for new spending because it has already been committed to pay for debt service. Refer to page 13 of this report for a more detailed presentation of governmental fund balances.

In the General Fund, the City originally budgeted for a \$56,516 increase in fund balance. The actual increase to fund balance for the General Fund was \$563,097 for fiscal year 2006. The main reason for the greater than expected addition to fund balance is the increase in property tax revenues and sales tax revenues.

Proprietary Funds – The City's proprietary fund statements, beginning on page 19 of this report, provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets are \$1,743,617 for the Utility Operations Fund, \$(512,399) for the Sanitation Fund, and \$284,554 for the EMS Fund. These proprietary funds experienced changes in total net assets during the year of \$157,427, \$391,654, and \$220,186, respectively. The City sells water to most surrounding towns in Navarro County and these are the City's top users. Utility rates were increased in February 2006. Revenues came in higher than expected due to water restriction surcharges. The slight decrease in the Sanitation Operating Fund is due to a decrease in usage of our Landfill. The EMS Fund increase is due to higher collections and a larger services payment from the county.

General Fund Budgetary Highlights – Refer to the General Fund Statement of Revenue, Expenditures and Changes in Fund Balances – Budget and Actual on pages 16 – 18 of this report for a detailed presentation of the actual General Fund operations compared to both the original and final budget for fiscal year 2006.

CAPITAL ASSETS

The City of Corsicana's investment in capital assets for its governmental and business-type activities as of September 30, 2006, amounts to \$94,713,730 (net of accumulated depreciation). This investment in capital assets includes land, building, equipment, improvements other than buildings, infrastructure and construction work in progress. Major capital asset events occurring during the current fiscal year related primarily to water and sewer infrastructure projects, machinery and equipment, and other improvements.

CITY OF CORSICANA'S CAPITAL ASSETS AT YEAR-END

	Governmental Activities		Business-type Activities		Totals	
	2006	2005	2006	2005	2006	2005

Additional information on the City's capital assets can be found in Note 4, pages 37 – 38 of this report.

DEBT ADMINISTRATION

At the end of the current fiscal year, the City of Corsicana had total bonded debt of \$44,800,000. Of this amount, \$17,855,000 represents bonded debt backed by the full faith and credit of the government and \$26,945,000 represents bonds secured solely by specific revenue sources (i.e. revenue bonds).

CITY OF CORSICANA'S OUTSTANDING DEBT AT YEAR-END

	Governmental Activities		Business-type Activities		Totals	
	2006	2005	2006	2005	2006	2005
General obligation	\$ 4,191,404	\$ 2,918,062	\$ -	\$ -	\$ 4,191,404	\$ 2,918,062
Revenue bonds payable	-	-	26,945,000	28,805,000	26,945,000	28,805,000
Certificates of obligation	6,784,018	4,554,018	6,879,578	7,597,920	6,784,018	12,151,938
	<u>\$ 10,975,422</u>	<u>\$ 7,472,080</u>	<u>\$ 33,824,578</u>	<u>\$ 36,402,920</u>	<u>\$ 44,800,000</u>	<u>\$ 43,875,000</u>

During the fiscal year, the City issued \$2,625,000 in General Obligation Refunding Bonds and \$4,110,000 in Certificates of Obligation.

The City's General Obligation, Certificates of Obligation, and Revenue Bond ratings are listed below.

	Moody's	Standard and Poor's
Tax Bonds	BAaa1	BBB+
Revenue Bonds	Baa1	BBB

In addition, various bond issues are rated Aaa by Moody's and AAA by S & P as a result of a policy of insurance executed at the time the bonds were sold. Additional information on the City of Corsicana's long-term debt can be found on pages 39 – 42 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The General Fund budget (including transfers in) for fiscal year 2007 is based on a projected revenue increase of 13.99% compared to the fiscal year 2006 adopted budget due to anticipated growth. Approximately 32.71% of General Fund revenues budgeted are sales taxes. Property taxes in FY 2007 make up about 32.25% of budgeted revenues.

The City's budget has been impacted by an increase in economic growth and sales tax receipts for FY 2006. This revenue source is the most volatile and the City is expecting a small increase in sales tax for FY 2007 as compared to FY 2006.

Expenditures remained fairly level with the prior year budget. Departments were asked to hold increases in operational expenses to a minimum, which resulted in only a slight increase over the previous year's operational budget. Employees received a 2% increase in FY 2006. The FY 2007 budget includes funding for a 2% salary increase for all employees; a 2% increase for pay grades 27 and below; a 1% increase for pay grades 20 and below; a 1% disparity increase for certain positions; and additional pay increases for some police and fire employees for rank disparity. Retirement benefits were also increased for all full time employees.

The Water and Sewer Fund budget includes an increase in utility rates implemented in February 2006. Drought conditions also forced the city to implement water restrictions and surcharges. Revenue did not meet budget, but came in higher than expected under the circumstances. Utility rates should again increase in February 2007 to provide funding for a water line from Richland Chambers Lake.

REQUESTS FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact Cathy McMullan, Director of Finance, (email: cmcmullan@ci.corsicana.tx.us) at 200 N. 12th Street, Corsicana, Texas 75110, or call (903) 654-4815.

CITY OF CORSICANA, TEXAS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES**

FOR THE YEAR ENDED SEPTEMBER 30, 2006

Net change in fund balances - total governmental funds:	\$ 4,695,749
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of the assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	(687,873)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	12,862
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment on long-term debt and related items.	(3,557,177)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(167,748)
Change in net assets of governmental activities	<u>\$ 295,813</u>

The accompanying notes are an integral part of these financial statements.

CITY OF CORSICANA, TEXAS

NOTES TO THE FINANCIAL STATEMENTS

SEPTEMBER 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Corsicana, Texas (the City) was incorporated July 11, 1848, while the City's Home Rule Charter was adopted in 1996 and last updated by election in 2005. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning, general and administrative, water and wastewater services.

The City's accounting and reporting policies relating to the funds and account groups included in the accompanying financial statements conform to generally accepted accounting principles (GAAP) applicable to state and local governments, which include those principles prescribed by the Governmental Accounting Standards Board (GASB). The following represent the significant accounting and reporting policies and practices used by the City.

A. Reporting Entity

The reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Financial accountability exists if a primary government appoints a voting majority of an organization's governing Board and is able either to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations with a separately elected governing Board, a governing Board appointed by another government, or a jointly appointed Board that is fiscally dependent on the primary government.

In accordance with Governmental Accounting Standards Board requirements, the City has reviewed other entities and activities for possible inclusion in the reporting entity and has determined that there are none.

(continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-like activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenue* includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as *general revenue*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.
